An architectural journey  
in sustainability

rhino  
wood

Brought to you by  
 **international  
timber**

In 2014 Rhino Wood received the World Wide Fund (WWF) Climate Solver award. This award recognises businesses that are developing and commercialising innovations that reduce carbon emissions and boost energy access around the world.

The mark of  
responsible forestry

Rhino Wood supports responsible forestry. Please request FSC® certified products when speaking to our sales team.

# DECKING

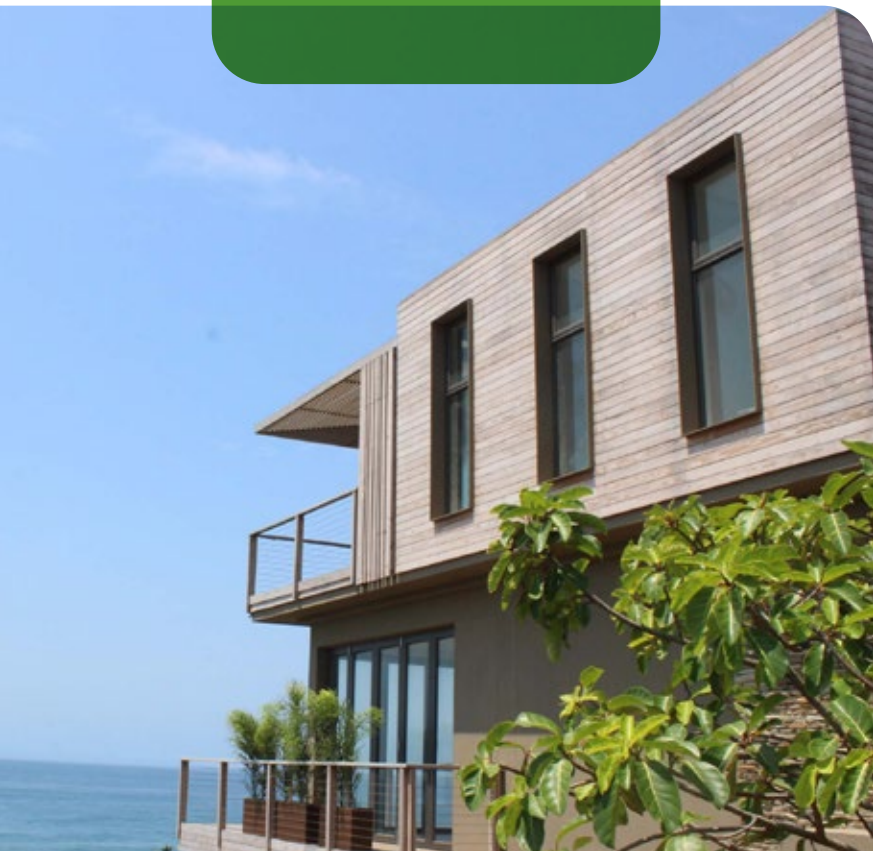

# CLADDING

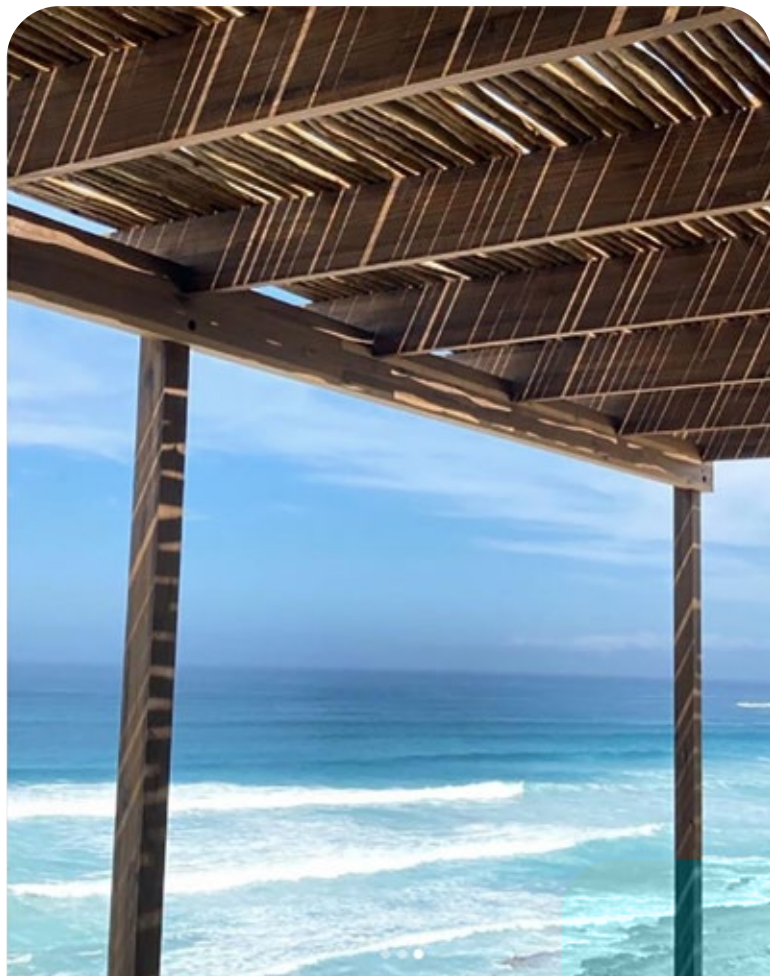

# LAMINATED BEAMS

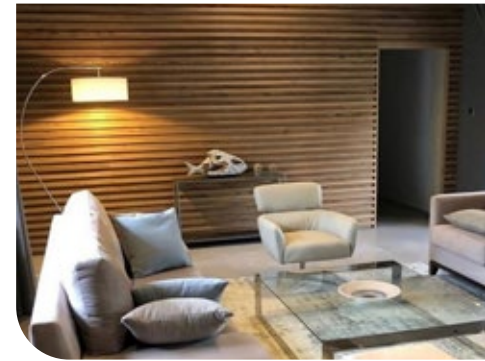

# PERGOLAS

# INDOOR APPLICATIONS

While Rhino Wood was created with the harshness of outdoor in mind, it is nevertheless a beautiful sustainable timber that radiates warmth and luxury when used in indoor applications.

## OTHER USES

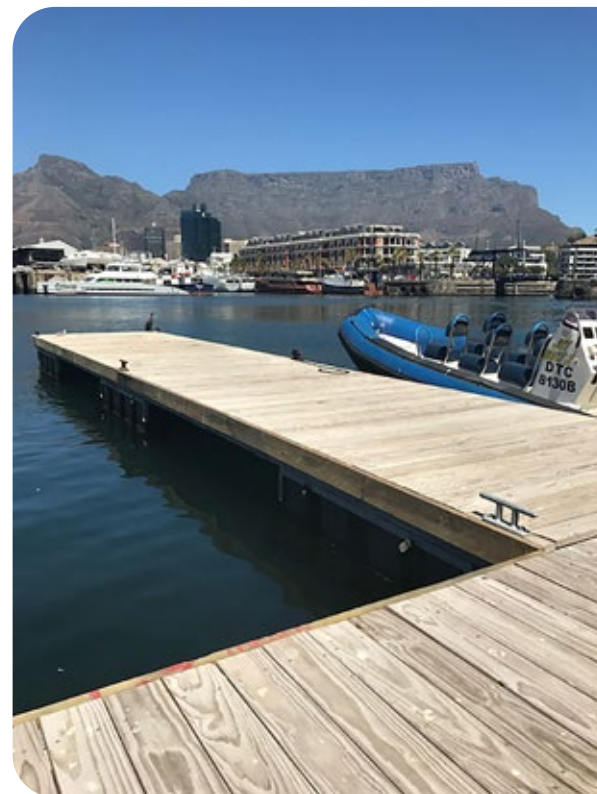

## Doors & Gates

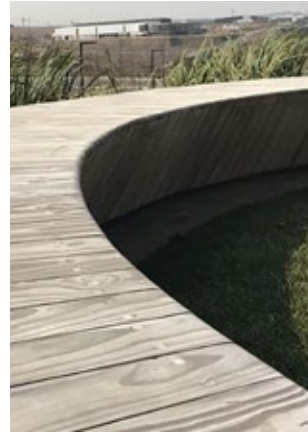

## Gardens & Planters

Seating

## OTHER AESTHETICS

The look and feel of Rhino Wood can be altered to your specific aesthetic.

# WEATHERING & DURABILITY

Rhino Wood is dimensionally stable and it will fade over time to a silvery grey patina when left untreated.
