**ENVIRONMENTAL CREDENTIALS** 

**Certification** MTCC or similar accreditation

**Origin** South East Asia

**TECHNICAL INFORMATION** 

### Physical Structure

It has superior bending, flexibility and crushing strength than that of European Oak, although it is not as hard

**Durability** Moderately durable

Moisture Content 12-14% Kiln Dried

Working Qualities Works well with a smooth finish when machined, takes a stain or coating well

**Storage Advice** Product needs to be kept undercover in dry conditions

Wastage Allowance

25 – 40%

### Stability

Kiln dries well with little distortion, remains stable in the majority of joinery applications
