

## CLS & Carcassing Timber

### BOTANICAL NAME

**Spruce (Picea abies)**

### OVERVIEW

Discover International Timber's CLS & Carcassing Timber – the go-to solution for robust, eco-friendly construction projects. Our versatile timber, sourced responsibly from managed forests, offers strength, stability, and easy workability.

### Features:

- 1. Versatile Construction:** Ideal for framing, stud work, and general construction.
- 2. Strength and Stability:** Ensures long-lasting, solid structures.
- 3. Sustainability:** Responsibly sourced for eco-friendly building practices.
- 4. Ease of Workability:** Facilitates precision cutting and fitting.
- 5. Moisture Resistance:** Suitable for both interior and exterior applications.

### Advantages:

- 1. Cost-Effective:** Exceptional value without compromising quality.
- 2. Consistent Quality:** Rigorous quality control for reliable performance.
- 3. Compliance:** Meets industry regulations and building codes.

### Tips for Best Results:

- 1. Proper Storage:** Keep in a dry, well-ventilated area to prevent warping.

- 2. Precision Cutting:** Use appropriate tools for accurate fits.
- 3. Pre-treatment:** Consider wood preservatives for added protection.
- 4. Follow Guidelines:** Adhere to local building codes for proper use.

Build confidently with International Timber â€™ quality, sustainability, and performance excellence.

## Further Product Information

### APPLICATIONS & USES

Stud Work (internal timber frame walls)

### DIMENSIONS

#### Planed R4C – Untreated (CLS)

- 50 x 150 (38 x 140) x 2.4
- 50 x 150 (38 x 140) x 4.8
- 50 x 100 (38 x 89) x 2.4
- 50 x 100( 38 x 89) x 3.0
- 50 x 100 (38 x 89) x 4.8
- 50 x 75 (38 x 63) x 2.4
- 50 x 75 (38 x 63) x 4.8

### ENVIRONMENTAL CREDENTIALS

#### Certification

FSC

PEFC

#### Origin

Sweden, Central Europe
