

Thermowood Decking

OVERVIEW

Further Product Information

APPLICATIONS & USES

Decking, terraces, patios and balconies

ENVIRONMENTAL CREDENTIALS

Certification

PEFC

TECHNICAL INFORMATION

Life Expectancy

Minimum 30 year life expectancy confirmed by Building Research Establishment

UV Protection

As with all timber, Thermowood is unable to resist the effects of ultraviolet radiation and the exposed surface will silver in a relatively short period of time

Coating

To maintain the appearance of the deck we recommend WoodGuard Colour Special Flooring when factory applied at our in-house facility
