

Melamine MDF

OVERVIEW

The 12 Twenty Melamine range is a collection of 30 decors.

Formed by covering an MDF core with a decorative resin-impregnated paper, the antibacterial melamine-faced MDF is suitable for use in high quality furniture and interior design projects.

The core of the material is composed of wood fibres, giving a flat and smooth surface, high density and stability, which makes it excellent for processing.

The board sizes come in 2440 x 1220 (8x4) making it easier to handle, store and transport.

Perfect to cut and machine

Excellent surface finish

Greater load capacity

High Resistance to surface impacts

High Resistance to impacts on mitre joints

If you would like a sample please add it here and let us know, in the message box when you finalise your request,

which finish you require.&
